Re: Gasketed Sewer Pipe Manufactured in Woodbridge, Ontario, Canada Facility

To Whom It May Concern:

4" through 24" gasketed SDR 35 and SDR 26 sewer pipe shall be manufactured in accordance with ASTM D3034, ASTM F679 and CSA B182.2. It shall be manufactured from virgin PVC compound having a cell classification of 12364 in accordance with and certified by the National Sanitation Foundation (NSF), to meet ASTM D1784. Gaskets shall be manufactured in accordance with ASTM F477 or ASTM F913. Gasket joints must comply with ASTM D3212 Internal Pressure Test (exfiltration) and Vacuum Test (infiltration) at 5 degrees of gasket joint deflection with an internal hydrostatic pressure rating of 10.8 psi.

Gasketed SDR 35 and SDR 26 sewer pipe shall be certified by the International Sanitation Foundation (NSF) and by the Canadian Standards Association (CSA) to meet CSA B182.2.

Sincerely,
